JILIT.

We move Southampton.

Southampton's Everything Ride.

No other company in Southampton does taxi, coach, movers, chauffeur, and parcels under one brand. That is not a weakness. That is the entire positioning.

One number. One app. One brand. Whatever needs moving, wherever it is going. That is what JILIT is.

This is not a taxi company that also does other things. This is the one company Southampton calls for anything that needs to move.

MOVE

Radio Taxis does taxis.
Door 2 Door does taxis.
JILIT does everything.

We move Southampton.

Three words. Double meaning. We physically move people and things across the city. And we move the city forward. This is the tagline that goes on every vehicle, every advert, every social post, every invoice.

Meet Jilit.

The animated brand ambassador.

Jilit is an animated chauffeur character. Friendly face. Sharp uniform. Cap slightly tilted. Always in motion.

He drives the taxi. He opens the coach door. He carries the boxes on moving day. He delivers the parcel with a smile.

One character. Every service. Every touchpoint.

Where Jilit lives.

- Website hero and booking confirmation screens
- App loading screen and ride tracking animations
- Social media content as the recurring character
- Vehicle branding on doors and rear windows
- Business cards and invoices
- Instagram Reels and TikTok as animated host
- Seasonal variations: Santa hat at Christmas, life jacket for cruise season, Saints scarf on matchday
- Student freshers week campaigns

One brand.
Five services.

Whatever needs moving. Wherever it is going.

This is how we talk.

- "Your ride is three minutes away. Sit tight."
- "Moving day sorted. One call, we handle the rest."
- "Saints away day? We have got a 49-seater with your name on it."

YES

This is how we do not.

- "We are committed to delivering excellence in transport solutions."
- "Our synergistic approach ensures optimal passenger satisfaction."
- "JILIT leverages cutting-edge logistics infrastructure."

NO

Southampton is the strategy.

Every piece of content ties back to the city. If it could work for any city, it does not work for JILIT.
